MY TIPS FOR GUESTS

B&B Sa Vivenda

BED AND BREAKFAST

..... *the reason for my advice* ....

In these pages I wanted to collect a series of information to give you a quick, albeit partial, vision of what **Alghero can offer**.
However, the best advice I can give you is to always and personally verify, through digital channels, the type of service provided.
I believe that the quality of an experience always depends on the people who meet.
I too was a tourist in Alghero and for this, in my small way, I try to make you this unforgettable experience so *that you too can be an ambassador of this wonderful city*.

An overview of the coasts of the Riviera del Corallo to allow you to choose which beach or cove to visit every day, starting from Alghero up to Stintino. Do not miss **“the Pineta di Maria Pia”** *(indicated as Lido Beach)* characterized by its white beach and shallow waters.
Bombarde and Lazzaretto, two small beaches with crystal clear water and a sulphurous seabed.
Mugoni beach, white sand and crystal clear sea, located in an area sheltered from the Mistral wind and from which it is possible to start by dinghy to visit coves otherwise unreachable by land such as **Cala Dragunara** and **Baia Inferno** *(a real paradise and called “hell” for the color that is assumed by the sunlit rock)*.
More distant but characterized by their “wild” nature you will find **Cala Porticciolo** and **Porto Ferro**.
The Argentiera, two small beaches that take their name from the mining village that is located close to it.
In **Stintino** you will find “our Caribbean” .. a day at the **Pelosa beach** will remain in your memories forever.

PALMAVERA NURAGHE

The nuragic complex of Palmavera is composed of limestone and sandstone blocks and consists of a central body with two towers, an antemural and a village of about fifty huts (it was built during three phases and the oldest structures are dated to the fifteenth century B.C).
Among the most interesting elements of this site, the meeting hut must be mentioned, which is the largest of the whole complex with a political-religious role.
The main nucleus of the site corresponds to the two nuragic towers (main tower and secondary tower) enclosed by a bastion, partially collapsed, in sandstone.

TRIPS OUT OF TOWN

BOSA

45 km from Alghero (about 55 minutes by car) take a ride on the coast road towards Bosa. A road inserted between sea and mountains, with unique and wonderful panoramas that come to life in a dream atmosphere, especially at sunset.

Also known as the ***City of the Sun***, composed of pretty colored houses, it is wonderful for a trip with family or friends, not only in the cobbled paths of the village, but also along the Temo river, the only navigable waterway in Sardinia.

It is possible to do some traditional shopping, *Bosa is renowned for its woven fabrics, filet embroidery and characteristic woven baskets*. To see the ancient village Sa Costa and perched on the Serravalle hill, there is the Malaspina castle which offers the opportunity to take beautiful photographs.

Last but not least, try Malvasia di Bosa, a DOC wine whose production is allowed in the provinces of Nuoro and Oristano.

CASTELSARDO

66 km from Alghero (about 1 hour and 10 minutes by car) nestled on a promontory that is reflected in the Gulf of Asinara, there is the small village (included in the ranking of the ***"most beautiful villages in Italy"***).
It is a village of medieval origin that will surprise you as it is inserted in the heart of the fragrant Sardinian Mediterranean scrub, with a coast of rocky coves, hidden coves and white sandy beaches.
At the foot of the Castello dei Doria, Castelsardo is a Sardinian village that winds its way between colored facades and narrow streets overlooked by shops, restaurants with iconic local menus and archaeological sites of Mediterranean history.

SASSARI

Sassari is 36 km from Alghero (about 30 minutes by car), a beautiful and regal city as well as full of surprises.

As soon as you start walking in the city center, you will also discover one of the most beautiful faces in Sardinia.
The first university in Sardinia was born in Sassari.

It is ***the city of Candlesticks*** (three meters high and heavy four quintals) and recognized by UNESCO as a World Heritage Site that parades dancing in the streets on August 14th.

It is full of historic buildings. It is the city where the best fast food is fainè.
The center and the nearby Viale Italia are the ideal place for meetings, purchases and shopping in general.

At the gates of the cities there are also some shopping centers
